NEW OFFICE

As mentioned in the last Newsletter the STAGBI Office has now moved. Please note new address and telephone number opposite. Please use the enclosed labels to update the address on your STAGBI passports and Certificates of Ownership.

ADMINISTRATIVE ASSISTANT

STAGBI is now seeking a person to assist with administrative/secretarial duties in the new office in Lampeter. Flexible hours approx. 10 hours per week. If you are interested please contact Gwenan Thomas (07974363545) or email info@standardbred.org

STANDARD BREDS OUT OF RACING

Standardbreds are bred to race. However, we have a very high number of Standardbreds that enjoy an alternative career once they have finished racing (or perhaps never got to the track). We are looking to create a network of people who have experience in "re-training" Standardbreds, people that would be happy to offer help and support to others. We are looking to develop the "SBs out of Racing" section of the website etc. So please, if you own a SB that is used for activities other than racing, please get in touch. Send us an email Info@standardbred.org – Subject: Standardbreds out of Racing.

MEMBERSHIP REMINDER

Reminder that if you are an ANNUAL member of STAGBI then your STAGBI membership will expire on 31 March 2016. Please complete membership form on the reverse of address sheet of this newsletter, and return to STAGBI with appropriate fee.

Gold Membership £40 for 5 years or Annual Membership £10//year. Remember you need to be a STAGBI member when making any transaction with STAGBI and to receive the newsletter.

STAGBI accepts no liability for any errors or omissions and any articles contained herein reflect the opinions of the writer which may or may not be the opinions of STAGBI or its Directors.

STAGBI FEES from 1 April 2016

REGISTRATION

Registration pack inc. Microchip £10

FULL BRED FOAL REGISTRATION (Reg & DNA)

by 31st December of year of birth £45

- ✓ Mare owner to be a current STAGBI member

*for Ireland 2016 – this will also include mares registered with STAGBI in the past 12 months

Please enter with relevant Race/Track secretaries

NOTICES

- ❖ **STAGBI & BHRC Awards Dinner :** On Saturday, 27th February, STAGBI in conjunction with the British Harness Racing Club (BHRC) staged the inaugural joint awards event to celebrate the achievements of a number of horses and individuals throughout the 2015 racing season. The event was held at Daresbury Park, Warrington, and the evening was led by the renowned commentator Darren Owen, who guided the 100 guests through the achievements of the winners, as well as interviewing drivers and promoters through the course of the evening.

Once again, in 2015, STAGBI awarded £8000 to breeders and owners in the way of Breeders Premiums and STAGBI Future Broodmares Races. The award winners were presented with their cheques and trophies by STAGBI President Mr Ryan O'Neil. It is hoped that this

Mr & Mrs Richard Thomas (breeders of For One Night Only) receiving the Brightwells Premium

event can become an annual fixture of the British Standardbred Industry and that ALL prize winners will be able to attend to receive their awards.

For those that were unable to attend this year's event to receive your trophies, we will endeavour to get the trophies to you.

- ❖ **The Preacher Pan:** Further to the notice in last Newsletter The Preacher Pan's suspension has now been lifted and his Stallion Status has been re-instated in full.
- ❖ **Wolfman:** Stallion licence has been temporarily Suspended.
- ❖ **Notice to Stallion Owners:** As from January 1st 2016, stallion owners are required to submit

an application for a Stallion Licence **BEFORE** covering any mares. Issuing a Stallion Licence is subject to the approval of STAGBI; covering mares before a Stallion Licence is issued is done so at the stallion owner's own risk as the application for a Stallion Licence may be unsuccessful.

- ❖ **New Passports 2016:** Some of you will now that received the new EU compliant Equine Passports introduced 1st January 2016. The new regulations have required a change in format of the passport and the information permitted within the passports. EU Regulation has been very specific in the layout and what can be included in what is referred to as the Statutory Pages of the new passport. As a Breed Society it is somewhat disappointing that the actual pedigree of the horse appears to be irrelevant, and as a consequence the actual pedigree is buried in the body of the passport and is not permitted to appear in the passport until page 15. However, as a Breed Society STAGBI is permitted to include non-statutory pages (blue pages at the back of the passport) and this includes a 5 generation pedigree for Full Bred Standardbreds and as appropriate for Part Bred Standardbreds. Other changes introduced by the regulation is the necessity to record the castration of a colt. The Vet will be required to date and sign passport following castration.

- ❖ **Registrations of Standardbreds in Ireland:** As many of you may now be aware, the Irish Harness Racing Association have chosen to become independent of STAGBI. The IHRA will manage the Irish Standardbred Stud Book and have been issued Passport Issuing Organisation status with registrations and passports being processed and issued by Horse Sport Ireland. As of 1st Feb 2016, the IHRA now request that all Standardbreds in Ireland are registered with the IHRA. Enquiries regarding new registrations should be directed to the IHRA 01 5310365 or info@irishharnessracing.com.

All current STAGBI passports issued to horses in Ireland are valid. However, the IHRA request that all Standardbreds in Ireland are transferred from the STAGBI Stud Book / Database and into the new Irish Standardbred Stud Book / Database. In order to achieve this, Irish owners are required to submit a completed **Application to Transfer Form**, for each horse to STAGBI. For Irish members, an application form can be found on the reverse of the address label of this newsletter. Please photocopy if you require further copies or forms can be downloaded from STAGBI or IHRC websites. Complete the form and **return to STAGBI with appropriate fee (£50)**. Stallions transferred prior to 1st May 2016, will be done free of charge (£50 thereafter). Broodmares transferred prior to 31st Oct 2016, will be done free of charge (£50 thereafter).

Prior to transfer please ensure that the horse is currently registered in your name and that you are in possession of a valid passport.

- If you have not already transferred the horse into your name then you need to do so before horse can be exported from STAGBI to IHRA.
- If you require a duplicate passport, you will need to apply to STAGBI for a duplicate passport.
- If you are processing a new registration, please note that the dam of the foal has to be transferred from STAGBI to IHRA before the registration can be processed by IHRA.

Once a horse is exported from STAGBI to IHRA then any future transactions should be pursued with the IHRA. Stallions transferred from STAGBI to IHRA will be removed from STAGBI Stallion List and applications for future

mating certs should be made to the IHRA. However, applications for retrospective mating certificates should be made to STAGBI. STAGBI and IHRA have agreed to honour mating certificates issued by either organisation regardless.

Due to increase in postage fees March 2016, please note increased postage for Ireland. Any passport posted to Ireland (Signed and tracked) will incur additional £10 fee, all other transactions incur £5 postage

If anybody in Ireland would like to continue to receive STAGBI Newsletter, please renew membership £20 per year (£10 per year & £10 Postage)

❖ **Breeders Premium & NEW Breeders Bonus**

Once again STAGBI will be supporting the Standardbred breeding industry by offering the annual Breeders Premium. The Breeders Premium is offered to the breeders of British Bred Standardbreds with the highest number of race wins. The Brightwells Premium is offered to the British breeder of a horse sold through the Brightwells Standardbred Sale.

In addition to the traditional Breeders Premium, in 2016 STAGBI will be introducing a new BREEDERS BONUS, offered to the breeder of a STAGBI registered British Bred winner of nominated races. For the inaugural year the races nominated are:

- The 4yo Senior Welsh Dragon ~
- The Appleby Spring Handicap Final
- The 2yo Vincent Delaney Memorial ~
- The Penybont Final
- The 3yo BHRC National Pacing Derby

NEW REGISTRATIONS Nov '15 – Mar '16

Please note that when new registrations are received the passport is issued SUBJECT TO PARENTAL VERIFICATION (see notes page within equine passport). Should there be a subsequent issue with the DNA result or the Parental Verification has not been confirmed, then STAGBI will recall the passport

and suspend the registration until such time as the matter has been resolved.

In the case of Late Registrations (Registrations received after the year of birth), passports will not be issued until such time as Parental Verification by DNA has been confirmed. Please be aware that this can take up to 6 to 8 weeks.

TWINS

Some of you may have spotted what you thought was an error in the list of new registrations - two foals listed with the same breeding born in the same year, but they are twins. A rare event and very few sets of twins have been previously registered by STAGBI.

In general twin foals born alive and survive are comparatively rare. It is estimated that twin conceptions occur in 15-20% of equine matings. Almost all twins are dizygotic, i.e. they arise from a double ovulation (two follicles) and will be non-identical twins. A double ovulation may be synchronised, occurring within one day of each other or asynchronised, more than one day apart. It has been shown that twins in mares are as likely to result from synchronous versus asynchronous ovulation.

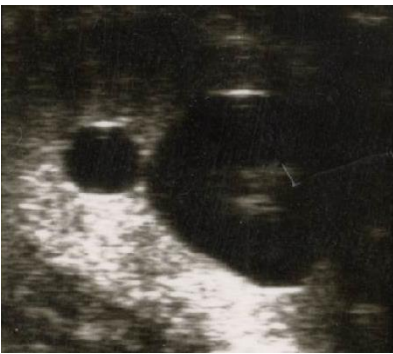

Figure 1: Ultrasound Scan of twin pregnancy with one twin significantly bigger than other. Asynchronised ovulation with 12 day pregnancy (left) and 16 day pregnancy (right)

A significant number of twin embryos spontaneously abort within the first 6 weeks of pregnancy. Thereafter, of twin pregnancies present after 6 weeks gestation, about 80% will subsequently abort spontaneously (usually around the 8 month). If one twin is not reduced at an early stage of

pregnancy the usual outcome is late-term abortion of both twins. Twins account for about 25% of all abortions in mares.

Left unmanaged and as a twin pregnancy progresses there is increased risk to the mare. Many complications can arise with late-term abortions or delivery of twins including dystocia (difficult delivery), retained placenta, prolapsed uterus, delayed uterine involution, infection, laminitis, fertility issues with subsequent breeding or loss of mare. In the rare case where the mare delivers one or two live foals, there are increased foaling problems for the mare and greater loss of life for the foals during the first two weeks of life. The combined birth weight of the twins equals the size of one normal, single foal, and generally the twins never catch up to normal weight and size.

With the odds stacked so unevenly against the twin pregnancy, it is recommended to endeavour to remove one of the twin embryos in early pregnancy. Doing so

maximizes the chances of the mare continuing on with a single, healthy pregnancy.

Therefore, it is important that an early diagnosis of twins be made. This is best done by ultrasound scan (US) at 14-16 days gestation. Understanding the outcome if twin pregnancies are left to develop is of great importance to veterinarians, farm managers and owners. The mare is very efficient at reducing twins to a single pregnancy, however the general consensus is that it should not be left to chance.

Figure 2: 15 day twin pregnancy adjacent to each other. Inadequate distance between them to pinch

When twins are identified by US at 14-16 days gestation, the embryos will still be mobile. Ensuring that there is distance between the twins, it is possible for the vet to manually crush or pinch one twin during the US without disturbing the second twin. Depending on the

position of the twins in the uterus it is possible to reduce the twins in this way up until 25 days gestation. However, there will always be a possibility of having reduced one twin, there is a chance that the second twin may also be lost.

After 25 days gestation, treatment options are limited. The twins may be left and re-scanned in 5-7 days to see if the reduction or abortion occurs naturally or a decision may be made to abort both twins, so that the mare can be bred again on the next cycle. If a decision is made to abort both pregnancies, this should be done before day 37 of the pregnancy. After this time the hormones produced by the mare may prevent her from coming back into season.

There are different options for the management of a twin pregnancy but it is generally agreed that the earlier that the manual intervention of crushing or pinching is performed the greater the chance of success. Mares which produce twins once are likely to produce twins again. Unfortunately, there is no good way to prevent or minimize a twin pregnancy, but focusing on early detection by having an early pregnancy scan will assist in the management of a twin pregnancy.

www.standardbred.org

Don't forget you can view the full pedigrees on the STAGBI website along with full list of registered stallions; Check stallion statistics and do some pedigree matching. **Go to www.standardbred.org**

STAGBI STALLIONS 2016:

Listed are stallions that are currently active & registered with STAGBI. Please check STAGBI website for a full list of Stallions registered with STAGBI. Please note Stallions that have been transferred to the Irish Standardbred Stud Book are not listed. Please notify STAGBI if details are incorrect.
